

WHERE NATURE
TAKES
CENTER-STAGE

NATURE IS NOT A PLACE TO VISIT NATURE IS OUR HOME

The world as we know is changing & nature is regaining center-stage in every aspect of our lives. We find ourselves focussing all our efforts on building a sustainable future defined by healthy communities and a healthy world, while clearly keeping nature at the heart of it.

Nature often induces awe, wonder and joy & being close to nature or simply viewing nature improves our well-being. When we start living a more natural life, we damage the environment less and when we adopt more ways to live naturally, we train our minds and bodies to be happier.

HEART OF NATURE

Started off with the laudable aim of planting 100 thousand trees, nature is at the heart of everything we do at County Farms Pvt. Ltd. The brainchild of Mr. W.S. Habib, County Farms will focus solely on developing & promoting a unique & distinguished selection of sustainable farmland developments that evoke year-round interest, encourage seamless connections between the built and natural environments and help you reconnect with Nature.

The future is now, and what we do right now is going to make the biggest difference in the years to come. And we need to take urgent steps to do things that add to our natural resources, instead of depleting them. At County Farms, we believe that we have an enduring responsibility to protect & enrich our natural environment.

With an ethos that is deeply rooted in sustainability, each & every project that comes under the County Farms banner will be environmentally responsive and inherently dedicated to the growth and redevelopment of communities while preserving, restoring & enhancing our natural resources.

Regenerative design is applied to conserve what is healthy, rebuild what is depleted, and ensure that valuable natural systems not only survive, but also thrive in each of our eco-friendly green developments. Our expertise & resources enable us to create a vision for a resilient & sustainable future filled with infinite possibilities.

NATURALLY INSPIRING

IBIS COUNTY is a 150-acre ecological paradise that brings together the finest in regenerative design strategies & environmentally friendly building practices to create an exceptionally beautiful & luxurious gated community of sustainable farmlands, right in the lap of Mother Nature.

Inspired by sustainable living and picturesquely located in the celebrated location of Vedanthangal, IBIS COUNTY allows you to experience a more meaningful and healthy life in a distinctive commune of like-minded individuals.

In this sensitively crafted & scenic landscape, blessed with unspoiled natural beauty and embellished with an extensive array of luxurious lifestyle amenities & modern infrastructure facilities, the mind, the body and the spirit can all be revived and renewed.

CONSERVATION SINCE TIME IMMEMORIAL

Vedanthangal is Asia's largest migratory birds sanctuary with birds flying in from all parts of the world.

A farm land close to this bird sanctuary adds more value to this unique concept.

The quality of water, air, soil and the placid lakes around the project makes it a unique proposition.

ORGANIC FARMING AND A HEALTHY LIFESTYLE

Today, more than ever, we need to make changes in our daily lives that will protect, preserve & add to our natural resources, instead of depleting them.

Organic farming is our best hope for a sustainable future since what we do right now is going to make the biggest difference in the future. Imagine the pride of owning your own farmland, preparing the soil and growing your own produce. That too without harmful chemicals & in a healthy & unpolluted environment. Therefore, never has there been a greater demand for farming & farmlands where we can appreciate, restore & live, in absolute harmony with Mother Nature.

WORK FROM FARM

It wasn't long ago when it was mandatory to live where you worked. With the professional world shifting to remote work, there is a new outlook towards work-life balance.

Connecting with nature is essential to our overall well-being & incorporating nature into your workday will help you relax & relieve stress and increase focus, creativity & productivity.

Imagine a charming farmhouse situated in an idyllic gated community in a serene environment & empowered by seamless high-speed internet access. And now imagine you working from this enchanting setting at Ibis County. With scenic views of lush greenery and ambient music of birds chirping, you realize that the power of nature is unparalleled & inspiring.

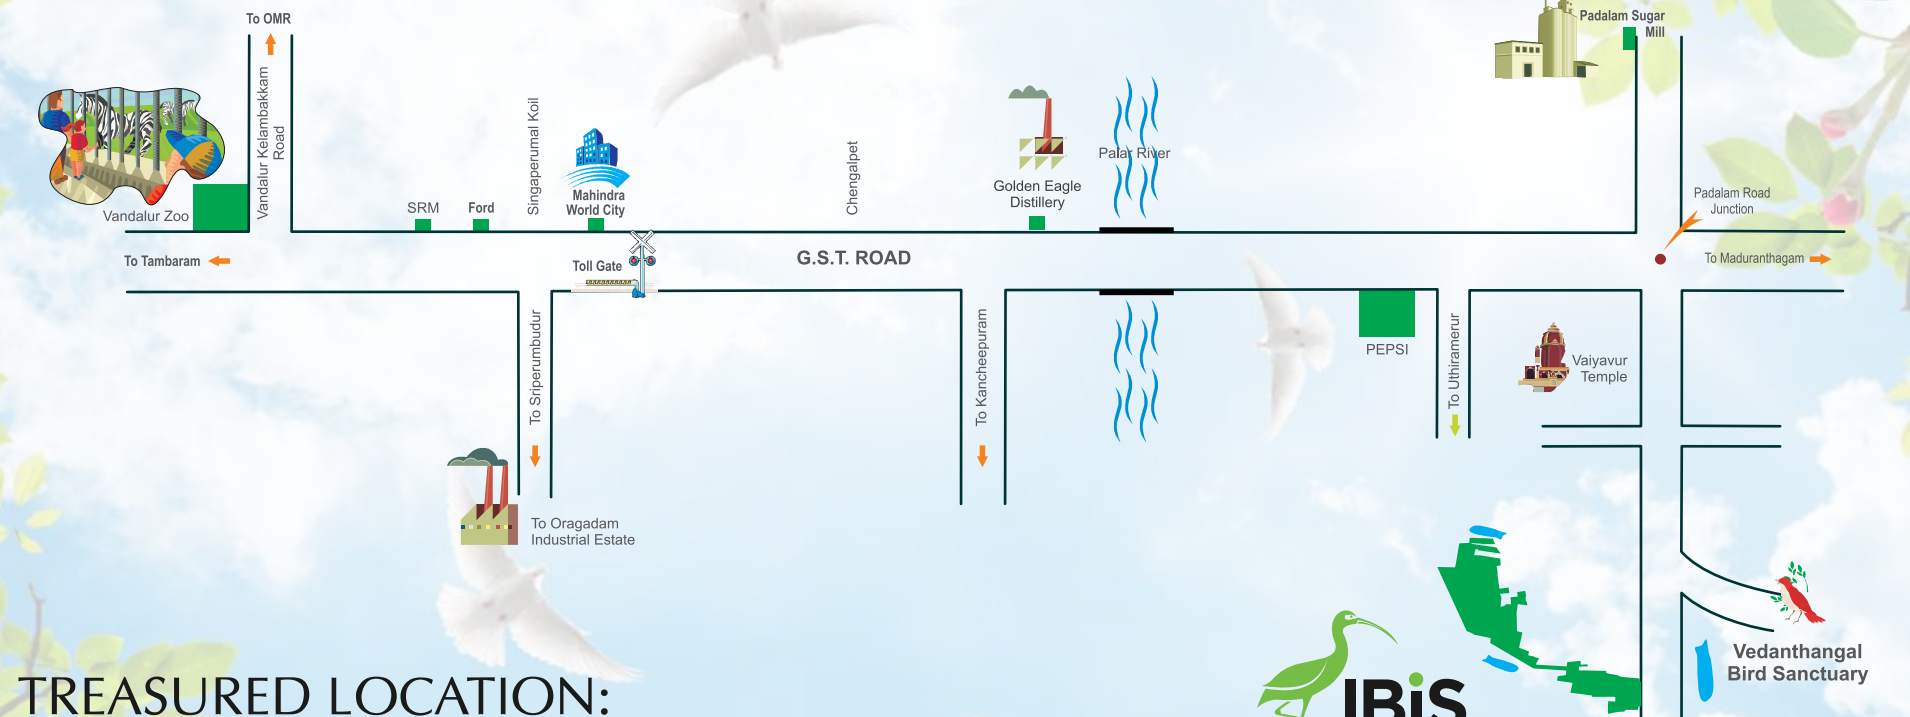

Come get inspired at Ibis County.

LOCATION ADVANTAGE

A natural paradise surrounded by a silent valley for a 5 km radius, a virgin space not tarnished by the imperfections of deforestation and urban development.
